August, 24th 2023 –Research Group for Robotics and Intelligent Systems

UiO Growth House – new innovation unit

- Growth House see our role as:
 - A professional **service provider**, placing the researcher at the centre
 - Bring knowledge from research into wider use, for the benefit of society
 - Building a bridge between industry and academia for increased research activity and mobility
 - Collaboration between the Faculty of Medicine and the Faculty of Mathematics and Natural Sciences.
 - Financial support from: UiO Central Administration and UiO:Life Science.
 - Hosted at Faculty of Medicine (MED)

UiO Growth House
